

Appl. No. # 10/781,221
Amdt. dated 10/26/2004
Reply to OA of 9/14/2004

Remarks/Arguments:

According to the 103 rejections to the Claims the applicant responds as follows:

The limitation was added to all claims

wherein gaps are formed between sets of substrate plates and their separation membranes,
whereby the battery can have a large capacity with a capacitor-like functionality.

This point of novelty thus makes all claims allowable.

Respectfully submitted,

Clement Cheng, Esq.
